The first spring month was ushered
in Monday, it was a cold raw day, and
we will say it came in like a lion, hop-
ing it will go out like a lamb.

I am now prepared to do nice dress-
making at reasonable rates. Am located
in Mrs. Nannie Rogers Powell old stand,
Mrs. J. W. Aker.

A Mercer Co. woman took advan-
tage of the last day of February and
killed her husband, it being unlawful
to kill husbands, in Boyle and Mercer,
after the first day of March.

After talking to two of our friends
one of whom has a new baby at his
house, the other a fresh-air crank who
sleeps outdoors and takes cold baths,
we tried to change the subject to war.

Cover your patches of turnip and
other greens, if you have not already
done it, with straw litter about four
inches or over deep and you will force

this be so it will repay you well for
the little cost, don't you think?

A preacher was fined \$50 at Somerset
for making naughty remarks to a
woman who brought a pet poodle to
church, the jury finding that so long as
the woman and the dog acted decor-
ously there was no occasion for the
preacher to sass her. We are sure the
poodle acted more decorously and dis-
turbed the preacher less than some
boys and girls we have seen in church.

POPULAR SPEAKER.

Dr. Crossfield, of Transylvania
University, will lecture Sunday night
at Christian Church, his subject will be,
The Great Life Plan. Dr. Crossfield is
a forceful speaker and we bespeak for
him a large audience.

HIGH CLASS ENTERTAINMENT

The C. E. of the Christian church,
are hoping to secure the Transylvania
Glee Club for March 30th. This club
is composed of two professors and 21
college boys.

They present a play, high class music
and popular songs.

FINE PIANIST

Mr. Raymond Hughes, of Louisville,
who is the piano player at the Opera
House, is said, by those who know, to
be the finest pianist in Kentucky. A
great many go just to hear him and all
pronounce him a wonder. He pleases
all classes, playing both ragtime and
classical music.

BUYS ANOTHER FARM.

Mr. J. I. Hamilton purchased last
week of J. Y. and J. F. Robinson their
farm out the Kemper lane on the Lex-
ington pike and containing about 350
acres, for \$85 an acre. This farm is
known as the William Clark farm and
is considered one of the most productive
in the county.

JONES--YEAKEY.

Mr. Gooch Yeakey, a prosperous
farmer of Hedgeville and Miss Gertrude
Jones, one of the belles of Hedgeville,
were made man and wife by Rev. F.
M. Tindler last Friday afternoon. The
bride was a cousin of Mrs. Jim Hatcher
and the ceremony was performed at
her residence on Water Street. Many
good wishes and congratulations are
extended the happy couple.

LOOK OUT FOR THEM.

From different parts of the country
come stories of a swindle successfully
worked on farmers who thought they
were going to get cheap groceries.
Two smooth strangers went through
the communities taking orders for a
house in Chicago, pretending to sell a
standard brand of sugar and flour so
cheaply that every farmer visited took
from \$10 to \$60 worth and other things
besides. Because of the low prices the
flour and sugar had to be "paid in ad-
vance." It is alleged that in one com-
munity the swindlers picked up some
\$3,000 and no groceries delivered.—
Somerset Journal.

NEAR ACCIDENT.

While switching a car of coal on to
the elevated track of Hudson and
Hughes last Tuesday morning, the
front truck of the car jumped the track
and came near toppling over before the
train could be stopped. "Jimmie"
Highland, the head brakeman on "Old
Henry", and one of the most accommo-
dating boys one ever meets, was on the
derailed car at the time and thinking
that it was sure to go over, jumped to
the ground a distance of 15 feet and
seriously sprained his knee. The car
was stopped in about its length and no
further damage was done. "Jimmie"
was sent to Richmond on the eleven
o'clock train and his friends hope for
his speedy recovery.

SAD DEATH.

Mr. T. R. Stults, has just returned
from Columbia, where he was called by
the illness and death of a beloved
daughter, Mrs. Fannie Stults Browning.
Mr. Stults has the sympathy of the
many friends he has made since coming
to our county, in his sad bereavement.

MRS ALICE B. WALKER DEAD

Mrs. Alice Barkley Walker died at a
sanitarium in Lexington after a pro-
tracted illness of paralysis and nervous
prostration. She was a native of
Jessamine county and a member of a
prominent family. She married Mr. T.
B. Walker, of Lancaster, and after his
death a few years ago, she returned to
Nicholasville to make her home. She
is survived by two sons, George, age 18
a student in State University, and
Thomas, aged 13. She is also survived
by a brother, S. A. Barkley, a wealthy
farmer, and two sisters, Mrs. W. L.
Steel, of Nicholasville, and Mrs. Mary
Doty, of Winnsboro, S. C.

The funeral services of Mrs. Walker,
were held Sunday afternoon at the resi-
dence of her sister, Mrs. W. L. Steel,
Rev. Coakley, of the Baptist Church,
and Rev. J. J. Rice, of the Presby-
terian Church, officiating.

Mrs. Walker came to Lancaster as a
bride, and all who knew her learned to
love her and deeply sympathize with
the two boys in the loss of a devoted
mother.

ALEXANDER BANK

DIRECTORS SUED.

John J. Williams, for the State Bank-
ing Commissioner, has filed suit against
the directors of the defunct Alexander
bank for \$104,000, representing the
principal and interest of notes the
banking commissioner charges were
used for the sole benefit of George
Alexander and of which Mr. Alexander
assumed all responsibility on the wit-
ness stand in his recent trial in which
he was sentenced to an indeterminate
term in the Frankfort prison.

The notes themselves aggregated
\$84,000 and the interest brings the to-
tal amount sued for to \$104,000.

After setting up each note not exe-
cuted by Mr. Alexander the petition
alleges that the money went for the
use and benefit of George Alexander.
This is the largest suit ever filed in
the Bourbon Circuit Court.

CIRCUIT COURT CONVENES

Judge Hardin On Bench and Dockets
Being Rapidly Cleared.

Promptly at ten o'clock last Monday
morning, with Judge Hardin on the
bench and Commonwealth Attorney
Emmet Puryear and County Attorney
Green Clay Walker on hand to see that
the screws were put to all violators
of the law, Circuit Court was opened here
for a three weeks term. After the
usual formality of opening the court
and the calling of the grand-jury was
completed, Judge Hardin announced
that Hon. Emmet Puryear had been
asked to instruct the grand-jury, which
was done with the ease, grace and
solemnity of a Judge with many years
of experience. The large audience in
the court house at the time, listened
with much interest to Mr. Puryear and
he held the attention of the jurors for
more than twenty minutes and he covered,
in that time, most every violation of
the law from a cigarette smoker to a
first degree murderer. He spoke of
the grand-jury being the eye of the
citizenship, to stand behind the officers
of the law, to see that same was en-
forced, of the citizen, who was the
breeder of crime, who sees a man with
a deadly weapon concealed and refuses
to report it, classing such men as op-
posed to the enforcement of the law.
He touched upon the violation of the
local option law and said that he
believed that it was true that this law
was being violated every day in the
city of Lancaster; he said that laws
had been passed to make it a serious
crime to sell or possess for sale, vinus,
spirtnus or malt liquors and that this
law was passed to prevent drunkenness
and the crimes that are committed by
persons while under the influence of
liquor. He called attention to the new
law which provides for a much larger
penalty for carrying concealed weapons
than formerly and asked that investiga-
tions be made along this line and adding
that, in his opinion, it was one of the
worst offenses of all and the violator
should be punished for it. At the con-
clusion of the instructions Mr. Puryear
was warmly congratulated upon his
maiden effort in this line.

The following have been chosen to
serve as jurors during the present
term.

TO OUR PATRONS AND FRIENDS

A number of Ice Plants over the country have found after careful examination of their books that it cost them about 10 per cent to charge and collect their retail Ice accounts. As a result they are rapidly placing their retail business on a cash basis.

Our own experience being in line with the above and believing that this 10 per cent cost is an unwarranted loss, we have decided to do likewise. However, we do not expect to add this 10 per cent to our profits; but will reduce our prices accordingly, so as to give the benefit of the saving to our patrons.

Therefore beginning March 15th, 1915 we will conduct our entire retail business strictly for cash and the following reductions will be made on Ice Coupon Books.

400 lb Book, Old Price \$2.50 less 10 per cent, New Price \$2.25
1000 lb Book, Old Price \$5.00 less 10 per cent, New Price \$4.50
2000 lb Book, Old Price \$9.00 less 10 per cent, New Price \$8.10

It is our purpose to render the best service possible and to this end we will welcome suggestions and the co-operation of our patrons. Respt.

RUNABOUT -	\$440.

F. O. B. Detroit, all cars fully equipped. (In the United States of America, only.)

Further, we will be able to obtain the maximum efficiency in our factory production, and the minimum cost in our purchasing and sales departments if we can reach an output of 300,000 cars between the above dates. And should we reach this production, we agree to pay as the buyers share, from \$40. to \$60. per car (on or about August 1, 1915) to every retail buyer who purchases a new Ford car between August 1, 1914 and August 1, 1915. BACKACHE IS A WARNING

Lancaster People Should Not Neglect Their Kidneys.

Backache is often nature's most frequent signal of weakened kidneys. To relieve the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years. Here is convincing proof of merit. It comes from this locality.

R. C. Faulkner, R. F. D. No. 2, Box 134, Paint Lick, Ky., says: "I suffered for some time from a weak back. A dull pain through my loins gave me much trouble. I learned about Doan's Kidney Pills and used them. They soon removed the aches and pains."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Faulkner had. Foster-Milburn Co., Props. Buffalo, N. Y.

NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs. Burton, Under the Circumstances.

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

Hubert Naylor, colored, shot his stepfather, George Coffey, in the breast here this week, inflicting an ugly wound, but not a serious one. Naylor gave himself up, and his trial was held here Monday. He was cleared and Coffey was given 30 days in jail for house-breaking.

NATIONAL HYMNS.

"Die Watch am Rhein," which is the German national hymn and is being sung now by all Teutons, whether at home or on the battlefield, was written by a certain Max Schneckenburger, who was born in the little town of Thalheim in Wurttemberg. Schneckenburger was a druggist's assistant in Bern where he composed the poem in 1940.

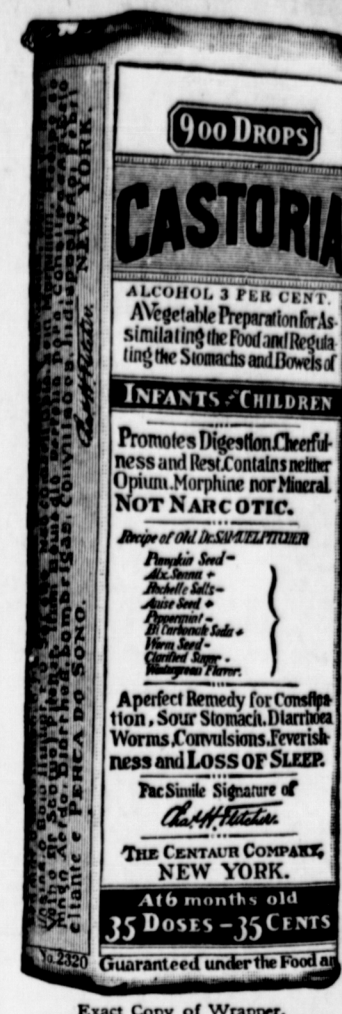

At that time, says the Neue Freie Presse, France was vociferously demanding a march on the Rhine—that is to say, war with Germany—and German patriotic songs began to be heard from one end of the stream to the other. The subject of the songs was almost exclusively the Rhine itself, which each nation proposed to cross, in order to get at grips with the other.

The theaters of Paris have reopened to the stirring chords of "La Marseillaise." Paris, who had silently gathered her strength in the face of threatened invasion, has again found her confidence and acknowledged her need of animation. There was a desire to return to the theater. But dimly productions were not wanted. Paris wished principally to unite, to cheer and to strengthen herself in the same lessons of the classics and in the dreams of noble music.

THE REASON WHY.

If the Record did not stick to the pay in advance rule, it would probably be out of business. At a time like this we would be glad to extend credit to our subscribers if we could, but we cannot afford it. The farmer is in better condition to live without money than we are. He has his corn, meat, chickens, potatoes, etc., while we have to pay our employees promptly. They too must have money to live. If we did not enforce the pay in advance rule very few of our subscribers would pay in advance, and about twenty-five per cent of them would never pay. This would place us in the position of having to run on credit if we could get credit, without having any definite idea when we would make collections and how much we would collect. When times were good we would make fairly good collections, but in times of financial stress, when we would need the money, there would hardly be any collection at all. Each subscriber thinks that his little dollar does not amount to much but 2,000 of them makes \$2,000, which is a considerable item in meeting our expenses. That is why it is necessary for us to collect subscriptions in advance, from rich and poor, white and black, honest and dishonest.

A newspaper like the Record cannot be published at prevailing prices for subscription and advertisement without collecting subscriptions in advance and keeping close up with collections for advertising and job work. The high cost of all newspaper material makes the margin of profit in the newspaper business very small even when there are no losses. In fact, no newspaper can really afford to get out a paper for \$1.00 at the present day prices of everything, but as long as we are trying to, we ask our friends to pay us promptly.

The Panama-Pacific International exposition, in celebration of one of the world's greatest achievements, the completion of the Panama canal, has been opened. A stately city of palaces has been built, and the biggest show of the century will soon be in full blast.

Notwithstanding the European war that is in progress, 41 foreign nations are participating in this wonderful enterprise with pavilions and displays. Forty-three states and three territories of the American union will have their buildings and exhibits in the city of palaces and splendor.

This is the first great exposition to open on time and, it is said, the first to be built within its budget.

According to the world's best critics, the most beautiful display of architecture, horticulture and natural setting are embodied in this consummation of art, science and ingenuity.

All eyes will now be focused on the city of the golden gate, all roads will lead to San Francisco and all thoughts will turn to the Pacific slope. California with its Panama-Pacific and San Diego expositions will be the Mecca to which all our American tourists will journey. The thousands and thousands of our people who have heretofore sought pleasure and recreation abroad will be compelled to confine their itineraries to their own country this year on account of the great European upheaval. It will be a good thing for these globe trotters who have failed to "see America first." They ought to become acquainted with their own country, where there is so much of the majestic and beautiful, the equal of which is not to be found any other place in the world.

"All accounts agree as to the greatness and beauty of the show at the Golden Gate. Reports of the first-day attendance run sufficiently close together to prove that the record of 176,453 admissions established at the St. Louis World's Fair in 1904 has been surpassed by an amazing count—has perhaps been doubled.

The Anderson News has the following to say which we heartily endorse and a rule we have always observed in regard to the matter.

"The Anderson News has never uttered one word, nor will it ever do so, which would lend humiliation or pain to the good name of the family of Col. Lillard, or his excellent sisters and kinpeople who reside in this county. It sincerely regrets the attack of Senator W. J. Stone, of Missouri, by way of illustration, in the Senate last week, concerning the vote of Col. Lillard in the Senatorial race of 1908 with that of the Ship Purchase Bill at present in regard to the seven democrats, who are opposing its passage. The attack was unwarranted, unstatesmanlike, undignified, ungentlemanly and completely showed the narrowness and smallness of the Senator who represents the great State of Missouri in the United States Senate. A Senator, who would so forget the high station of his lofty office to slander the dead and humiliate the living—the broken-hearted wife, children and sisters in their dark hour of sorrow and great affliction, is unworthy the station he occupies.

The tender ties of blood and marriage are greater than the mere suffrage of any man, or set of men. God only knows in His infinite mercy the great humiliation and pain that these good women and kinpeople have suffered by most unfortunate afflictions in the past, and why any man, or set of men, want to continue to pour out their wrath against their dead, we are unable to see."

GETTING MARRIED IN WISCONSIN.

Wisconsin's eugenic marriage law, which went into effect on the first of the new year, makes marriage in that State impossible, according to some of its critics. Others, more hopeful, say that it will prove a dead letter. It decrees that marriage licenses shall be issued only to those who present certificates from reputable physicians that they are sound in all respects; it requires that these certificates shall be based on the most searching laboratory tests; and it fixes the doctor's fee at three dollars.

WOMEN AND CHILDREN SUFFERERS.

"After all, it is not the women and children who are the real sufferers in war?"

"There is the suspense; there is the dread of the casualty list; there is the alternating hope, fear and despair if father, husband or brother is among the missing. The future to them may hold gloom and poverty. Theirs never can be the glory."

The speaker was Crown Princess Cecilie, future Empress of Germany. In the Cecilian house, the beautiful \$400,000 building of the Fatherland's Woman's Association in Charlottens-burg, I met her.

She was occupied as she has been every day since the war, acting as an angel of mercy, comforting the wounded and aiding their women and children.

"Europe is one vast hospital," she continued. "Isn't it a pity—such a pity? How happy your American women should be. Happy mothers, happy mothers, happy wives, happy sisters. There is none of the heartaches and miseries of war. They have none of the suspense that is ours."

FRANK JAMES, FORMER BANDIT.

Frank James, one of the last surviving members of the notorious James gang, died on his farm in Mo. last week. James, who was seventy-four years old, had been in ill health for several months and was stricken with apoplexy.

One of the last members of the notorious robber band whose unparalleled career of crime during the Civil war, and the unsettled period following, kept the people in a dozen states in terror. Frank James had been living a life of a quiet farmer more than thirty years.

Son of a minister and respected throughout the community, Frank James joined Quantrill's Guerrillas in the Civil war, and together with his brother, Jess, took part in sacking Lawrence, Kansas.

When the war ended they were hunted far and wide by relatives of those who had met death at their hands. Driven here and there they soon became outlaws.

Among the deeds the James gang committed in Kentucky were: Looting the Russellville Bank in 1768 for \$17,000 and a robbery of a bank at Columbia in 1872, in which R. A. G. Martin, cashier, was killed.

HEALTH, PLEASURE AND RECREATION.

If you had a million dollars to spend for the health and happiness of your boy or girl you could not get more for such an expenditure than would accrue from the purchase of a Shetland Pony. The force of this conclusion was fully demonstrated by the remark of a wealthy manufacturer who had millions to spend if he desired, but who declared that an investment of \$150, in a Shetland pony had given his child more real pleasure and happiness, combined with perfect health than he could have purchased with a thousand times the investment in other channels.

Health, pleasure and happiness were not only vouchsafed, but he declared that the sturdy health had supplanted a delicate constitution, a change which he directly attributed to the out-door exercise which the pony and vehicle invited and exacted.

Neither are bodily health and strength the only advantages accruing. There is that greater advantage—the minds growth and development, invited and invigorated by occupation, by out door life, by gratification and contentment. Building of body and mind under such condition is likewise building character, and character building is building for eternity.

These are the basis principles which induced the Leading Business men of Lancaster to participate in the Pony Contest, in which a first class Shetland Pony, vehicle and handsome set of harness are to be given away, to the most energetic boy or girl of this community.

It is now up to fathers, mothers, aunts and uncles to rally to the calls of the energetic children and in so doing encourage their favorite child in his or her effort to win the handsome outfit which is the chief desire of every child's life.

Look for the full page ad appearing in this issue, then enroll your favorite child at all the places of business mentioned therein, be sure to ask for post card which will greatly assist in winning.

Nine or ten rooms to rent. Call and see me. Would like to sell you a Suit or clean and press your clothes for \$2. per month. Join the Club.

COOPER ENDORSES

Y. M. C. A. WORK
Well-Known Man Becomes More Thoroughly Identified With Kentucky.

Lexington, March 4th, L. T. Cooper, the philanthropist, who electrified Lexington by furnishing, at his own personal expense, the bread that is used in the Orphans' Homes in that city, who established a "Bread Line" for the indigent poor, and who is conducting an agricultural exposition to encourage the farmers, whom he considers the bone and sinew of the land, became more thoroughly identified with Lexington in particular, and Central Kentucky in general, when he became a member of the Young Men's Christian Association.

Mr. Cooper was waited upon by a delegation of some of Lexington's best-known young men and invited to join the local Y. M. C. A. Mr. Cooper, a native Kentuckian, not only accepted the invitation to become a member, but he endorsed the work of one of Lexington's most deserving and commendable institutions.

The demand for Tanlac, the remarkable medicine that is now being introduced by Mr. Cooper to prove his theories on health, is now the biggest thing of the kind ever seen in this section. The preparation is accomplishing a powerful amount of good among the thousands who suffer from catarrh, stomach, liver and kidney complaints as well as rheumatism.

Hundreds of those who have actually used Tanlac talk enthusiastically about the astonishing results they obtained from the medicine.

Peter Geiser, living at 412 Clifton avenue, Lexington, said:

"While I haven't used an entire bottle of Tanlac so far, yet I consider it the most wonderful medicine I have ever seen. I suffered for years with stomach and kidney trouble. I also had headaches, indigestion, and attacks of rheumatism.

"My troubles have all disappeared, and I can trace my remarkable improvement to no other cause than Tanlac. It is fine."

Tanlac can now be obtained in Lancaster from R. E. McRoberts.

REMARKABLE STREETS.

The highest street in the world is Main street, in Denver; the richest is Fifth avenue, in New York City; the widest is Market street, Philadelphia, and the shortest is the Rue Ble, in Paris. The dirtiest are in Lancaster, Ky.

VIOLIN STUDIO

Mr. Chas. Schemmel will open a violin studio in Lancaster, and in this weeks issue of the Record appears his announcement. So much has been said by the music loving Lancastrians in commendation of Mr. Schemmel that it seems superfluous to add anything to the already overwhelming praise that has been lavished upon him.

NEW SCIENCE OF AGRONOMY.

"Farm products cost more than they used to."

"Yes," replied the farmer. "When a farmer is supposed to know the botanical name of what he's raising 'an' the entomological name of the insect that eats it, 'an' the pharmaceutical names of the chemical that will kill it, somebody's got to pay."

GRANDMOTHER'S

LINEN CHEST.

"I like everything that's old, old friends, old times, old manners, old books, old wine."

And if the renowned Goldsmith were here today he would doubtless add to his list of the good and the true the magic name, old furniture. It is a name to conjure with, a name at whose shrine devotees from east and west, from north and south, worship and like all fanatics they willingly pay the price the cause demands in sacrifice and hardship.

The world is tired of the new, the gaudy, the false, and after all we begin to think that our old colonial ancestors knew more than we do about some things, particularly furniture. We like the lines, no frills and fur-fur, and belows, as it were, and then there's solid comfort and durability, and another thing in this day of the newly rich we like a little history, it gives the family setting a charm, a glow all its own, an heirloom brought by grandfather when he came thru from Virginia, an old cherry chest that was great-grandmother's dowry as a bride with its snowy linens woven at the family looms. And then those stitches—unmatched today and belonging to the age when needlework was a fine art, today a lost art. It was the time when women were the homemakers, not the money-makers, before the time when women vied with the men in the marts of the world that grandmother wove the story of her love and her hopes as she sat at the loom of life. Her story is written, the book is closed, the tired hands forever folded on her peaceful breast, but the little old chest that sits in the eave of the garret tells the story of the perseverance, the endurance, the sturdiness, and the ambition that entered into the fibre of the sons, the grandsons, and the great grandsons and made of them the statesmen, the heroic soldiers, and the men of business that move the levers of the nation to day, at whose touch the world has swung forward a cycle in its revolution.

WAR AND DRUG FAMINE.

There will be a difference of opinion regarding the effect of a possible scarcity of drugs, due to the war in Europe. Physicians may have to adapt their prescriptions to the available supply; patients will have to be satisfied with what they can get. Druggists will find additional scope for their skill in recommending "something just as good." But those who eschew the use of drugs altogether, and many physicians who are learning toward the use of other therapeutic measures, will doubtless keep calm and regard the "famine" with equanimity, even with a certain sardonic amusement.

PRODUCTIVE HOG LOT.

Mr. N. J. Gosney, of Marksburg, who tips the beam at 320 pounds, and with a heart as big as his avoidpoids, has outstripped all the Garrard county farmers when it comes to raising tobacco that produces the pounds. In a hog lot near his home, containing four and one half acres of measured land, he raised 18,360 pounds of tobacco, or an average of 2969 pounds to the acre. This entire crop was sold on the Danville Tobacco Warehouse breaks, and was brought there through the solicitation of Mr. C. W. Anderson, of this city, and sold for an average of ten cents from the ground up. * Mr. T. G. Durham was the tenant that was interested with Mr. Gosney and justly claims a share of the honors for this bumper crop. The four and one half acres realized \$1,336 or an average of \$266.90 an acre.

PHEASANTS FOR GARRARD.

Mr. John Farra has received a letter from J. Quincy Ward stating the Game and Fish Commission has secured a shipment of English Ring-Neck Pheasants from one of the largest estates in England, and these birds will be shipped from Liverpool in a few days and should arrive in Philadelphia in about three weeks. Upon arrival they will be examined by a representative of the U. S. Government, and if the birds show no disease, they will be forwarded by Express to each county in the State. Our information is, that these birds are shipped fifteen birds to each crate—5 males and 10 females—and one of these crates will be shipped to Mr. Farra for liberation in Garrard Co.

Mr. Farra is asked not to agree to liberate these birds upon any man's property until the owner or occupant thereof assures him that every protection will be given them, and gives him every assurance that they will help him obtain information to secure the arrest and conviction of any person who destroys or molests them, and he is asked to call their attention to the fact that this particular bird is protected by Statutes, Section 1944c, pages 25 and 26, pamphlet containing game and fish laws.

THE BARGAIN AUTO.

We see in the Louisville papers that a \$295 automobile is to be put upon the market. It aims at cutting under the established cheap automobiles and the cycle cars, which are not as yet of establishing popularity.

Why shouldn't there be a \$195 automobile? It costs much less to make some of those now selling for twice that sum.

It costs more to make a good hand-made buggy than it costs to make any one of the several kinds of motor runabouts. A hand-made buggy is always much better than "a cheap factory job," as the factory-made buggy is called. All automobiles are "factory jobs." It is due to the makers to say that few are as badly made as many cheap buggies. But all are made at small expense. It has been stated, and is doubtless true, that the actual cost of a \$500 automobile is about \$175. If that is true why should not a modest, yet durable and practical machine sell for less than \$300?

The day of the "poor man's car" seems at hand. Already there are machines of proved usefulness which, all things considered, can be afforded by anyone who can afford a good horse and a good buggy.

HEMP IN STRONG DEMAND.

On account of the war in the European countries hemp went to \$9 per hundred pounds this season, and Garrard Co., was not represented by as large a per cent of this as it should have been. On account of the difficulty in securing competent hands to break it, the farmer have ceased to worry over this crop, as it takes the full year to prepare it for the market from the time the seed is sown.

Garrard county hemp is sold all over the world. A hemp-breaking machine is the only piece of farm machinery that has never been perfected by the inventor, and this is one of the chief reasons for the discontinuance of the crop in the Bluegrass. Hemp aids the soil, while tobacco sets it back two years.

This year buyers have offered \$8 for the 1915 crop, and as a result there will be several hundred more acres grown the present year. With good season, growers claim that if \$8 can be secured the crop can be grown profitably, and many of them will give up tobacco and plant more hemp.

Messrs Jim House and Dave Duder last year put in 150 acres which will average one thousand pounds to the acre. They sold last year for 7 1/2 cents to Hudson and Hughes. It is estimated this crop will bring \$11,000, showing Garrard leads in hemp as well as tobacco.

TROUBLE GREATLY EXAGGERATED.

As a matter of precaution the Board of Health has caused the schools in Lebanon, the picture show and pool rooms to close for the present, as several mild cases of small pox have developed in Marion county. There have been wild rumors circulated as to the spread of the trouble, but at noon yesterday, Dr. C. B. Kobert, of the Board of Health, stated that there were eight families affected and six reported from the county outside of that city.

NOW IS THE TIME TO SWAT THE FLY.

Uncle Sam is waging a relentless war on the deadly housefly and in a late bulletin prepared by the Department of Agriculture, valuable information is given on the best means of combating this deadly pest. The most effective way of exterminating the fly, according to the bulletin, is to eradicate its breeding places. The breeding season of the fly begins early in March and continues throughout the spring and summer months. All dirt should be removed from the premises, stables cleaned and decaying vegetables destroyed.

The fly has rightly been called the undertaker's traveling salesman and in addition to his regular line of "typhoid bugs", he carries a side line of tuberculosis, Asiatic Cholera and other disease germs. Now is the time to "swat the fly."

SOME CIGARET FIGURES.

The "Hopeless Handicap" which cigarette-smoking puts on our youth impels Mr. C. W. Banes to ask in the Philadelphia Sunday School Times whether it is not "about time that our Sunday school leaders were beginning to sound the warning" against this habit. With its "attendant evils, the saloon and vice" he says, it is "sapping the mental and moral stamina of America's young men, gnawing at the very vitals of their physical well-being." Teachers throughout the country, we read, recognize in the cigarette "the school's deadliest foe, and confess without reservation that they find it practically impossible to educate a cigarette-smoking boy." Nor has the writer any toleration of the statement, "as fallacious as it is prevalent," that while cigarettes may be harmful to boys, they do not injure young men. He cites from the records of Harvard University the fact that "for fifty years not one tobacco user has stood at the head of his class, although five out of six (83 per cent.) Harvard students used the weed." On the whole, according to the writer, cigarettes hurt in some way "every one who smokes them," and he is dismayed to find the habit on the increase, as one may judge from the government report which shows that in 1913 "we consumed the amazing number of 14,530,486,200" cigarettes. "an increase of 2,186,633,708 over the previous 'banner cigarette year.'"

The following interesting letter was received from one of our Lancaster boys, for whom we predict a bright future. He has the pluck, good sense and energy that are sure to win anywhere.

Detroit, U. S. A.

Feb. 24, 1915, 306, Cameron, Ave.
Dear Mr. Elkin:-

No doubt you have forgotten by now that I am even on the globe.

I am enclosing one dollar, (post office money order) for the Central Record for year 1915. Wish you also kindly change address of same from 101 Milwaukee East to 306 Cameron ave. We certainly enjoy the Record and look forward to its coming.

We are quite busy these days. Mrs. Bastin has a class in Sunday School and I am assistant superintendent of the same.

I have a real good position now at Dodge Bros. Have charge of the Electric supply stock room, second floor indicated by arrow above. Am working for and am expecting a transfer to the purchasing department at Main office some time in the spring. There are six thousand working in the entire plant, three or four hundred women, the rest men. Now turning out one hundred Auto's daily. Expect to be working eight thousand people by May 1st and to turn out just double the number of cars. Even at present almost every part of the car is made at the plant. Within two years time they expect to be making every part, including spark plugs, lamp bulbs, tires, speedometers, starting and lighting generator and storage battery. A new four floor addition seventy one thousand feet will be begun next month. The factory is located in the out skirts of the city and the firm owns about two hundred and fifty acres of land around them so they can expand at will.

How are the dear Lancaster people feeling over the war situation. Give our regards to Mrs. Elkin and all the Record force. Remember us to Bro. Tindler.

With best regards I am,

Your Friend,

Clinton Bastin.

BOX BALL CONTEST

Burdett, Ed Brady and W. H. Overstreet on the other side, resulted in four games being played, each side winning two.

MR. JOHN GREENLEAF ILL

Mr. John Greenleaf, who for many years has lived in Richmond, but who was born and reared in Lancaster, sustained a slight stroke of paralysis Monday morning. His sister, Mrs. Emma Kauffman, hastened to his bedside and at this time he is resting well and his friends, here in his old home, are hoping for a speedy recovery.

OUR RIGHTS ON THE SEAS

President Wilson has stoutly affirmed the fundamental principle that no power can close the high seas to neutral commerce. He has firmly declared, ed that though the belligerents may work havoc against one another, no warship can attack a neutral American vessel without being held to strict accountability for committing a hostile act against the American flag, and American lives.

This is perfectly simple, and it is the international law which is beyond question.

ANOTHER FARMER

SPEAKS OUT

Himself and Son, He Declares, Have Been Greatly Helped By Andes. Catarrhal Condition is Quickly Overcome.

(Advertisement.)

Among the many statements received regarding the preparation that is accomplishing such wonderful results all over Kentucky, none is more interesting than the one given by G. A. Jones, a farmer, living in Franklin county near Frankfort. He said:

"Andes Prescription is so much better than I had expected that I take pleasure in saying that it is a good medicine, in fact, it is the best thing, and the only medicine I have ever found that would help me. I have been a great sufferer from catarrh for a number of years. I had all the symptoms such as fullness of the head of mornings, hawking and spitting up mucous matter and was sick at my stomach after eating. My son had about the same thing only worse. We tried everything that was mentioned to us as being good for catarrh, but nothing helped us until we got Andes Prescription. It seemed to touch our ailment directly, and besides overcoming our catarrhal condition it has been like a general tonic for our entire system. We both have been helped and I am glad to add my endorsement to such a medicine."

Andes Great Prescription and Oil is sold in Lancaster by R. E. McRoberts Drug Store.

Bro. Pollitt reports a great meeting at Jackson, many have been saved, and believers sanctified. Several added to the church while there was preaching. Sunday night at the other three churches, fully 100 people turned away from the Methodist church. Bro. Pollitt will be at home Friday, and will fill his pulpit Sunday morning and night.

The Womans Club
(Edited By The Womans Club)

A copy of Modern Painting, by Margaret Steele Anderson, has been sent the Womans Club Library by the Century Company. This book on modern art has four hundred pages and is most attractive in its blue cover with letters of gilt. There are numerous books on modern art, from the small hand book to the exhaustive study on any subject, but it seems that Miss Anderson has struck a happy medium with her book setting down briefly the various currents of modern painting, and bringing the laymen to an intelligent understanding of the movements, and significance of modern painting.

The book is divided into six parts. Part one—a study of Modern French Painting, treating of the change in the conception of painting brought about by impressionism, with the modern currents well defined. Part two treats of the basic facts and general tendencies of Modern German Painting, together with all that is worth while in the art of that country. Part three—Modern English Painting—the nineteenth century types and new movements. Part four—Modern American Painting—the formpeculiarly American illustrated by five landscapists, Inness, Wyant, Tryon, Martin and Homer. Other forms of American painting are discussed—figure painting, the idyllic and mural decorations. The two other divisions are Modern Spanish and Italian Painting and Modern Painting in the Lesser Countries.

Miss Anderson fully sustains her reputation as a word painter and poet in this book, for no where do we find more beautiful language or greater descriptive power. The book is beautifully illustrated throughout.

We heartily recommend this book to the Womans Club for their next years Art study.

Last Papal Coinage.
The popes gave up their claim to issue coinage in 1867, when Pius IX minted some few silver lira. Unlike some of his predecessors he left off his coins the representation of the keys symbolical of the claims to a Petrine succession.

Radiance of Unselfishness.
Unselfish and noble acts are the most radiant epochs in the biography of souls. When brought in earliest youth, they lie in the memory of age like the coral islands, green and sunny, amidst the melancholy waste of ocean. —Doctor Thomas.

A Declining Art.
"Don't you want your boy Josh to be a good speller?" asked the school teacher. "I dunno," replied Farmer Cornsack. "About all the notice a good speller gets nowadays is being called on occasionally to decide a bet."

Garlic for Wasp Stings.
With experiments being made to test the efficacy of garlic as a cure for consumptions, it is interesting to learn that another of the medical properties of this plant so little appreciated in this country is that a crushed clove of garlic is considered the best remedy for a wasp sting, if applied directly to the spot. In the French provinces the curative properties of garlic are well known in this respect.

Leopard a Wain Animal.
The leopard maintains its existence alongside its far more powerful rivals the lion and tiger by reason of its greater activity and power of climbing. Often it is driven from its well earned prey by the brute force of these greater cats, but it has the wise habit of storing the remains of its meals in a tree, the weight of meat thus placed aloft in one effort being sometimes almost incredible.

England and Ireland.
Erin-go-Bragh means "Ireland for ever." The Royal Standard was adopted January 1, 1801, on the union of Ireland with Great Britain. The quarters were representative of the three countries: England, three couchant lions on a red background in the first and fourth quarters; Scotland, a rampant lion in the second quarter; and Ireland, a golden harp on a green background, in the third quarter. The lion of Scotland was taken from the coat of arms of James VI.

Miss Lula McWhorter entertained the members of her Sunday School class on last Monday at her lovely country home.

Several young people from Lancaster chaperoned by Miss Morris, attended the entertainment at the school on Friday evening.

We wish to correct an error that appeared in last week's news from this place. The coal business of Burnam and Rucker has not been purchased by Mr. John Coldiron as was stated, but is still a part of the firms business. It will be managed by Mr. Roy Estridge.

The entertainments given by the Dramatic and Glee Clubs at the School Auditorium on Friday and Saturday evenings were highly successful from every standpoint. The programs were varied and showed that great care had been given each part. The work done by the Glee Club was splendid, considering they have been organized for such a short time, and the play "Two of a Kind" given on Friday evening was so highly entertaining that it was repeated by special request on Saturday evening. Prof. Waterbury deserves much commendation for two such high class entertainments.

GARNETT LOYAL TO HIS DUTIES

Attorney General Not In Race for gubernatorial nomination.

LOOKED UPON AS CANDIDATE

In Letter to Editor of Adair County News, He Declared That Participation in Primary Would Result in Neglect of Present Office—Is Recipient of Many Complimentary Notices From Kentucky Press.

Attorney General James Garnett of Adair county, who for a year or more has been regarded as an almost certain entry in the race for the democratic nomination for governor in the August, 1915, state primary, has notified his friends that he will not seek that honor.

General Garnett bases his decision to make the race upon the fact that the duties of his present office require his entire attention, and that he would have to neglect that office to make a campaign, and also upon the expense that would be incident to such a campaign. At the close of his present term of office, General Garnett will resume the practice of the law. He says it shall be his pleasure to do at all times do what he can to further the cause of the Democratic party.

The declaration of General Garnett that he will not be a candidate for governor was made in a letter to Editor C. S. Harris of the Adair County News, his home newspaper, in which he says:

I have your very kind favor of the 19th asking me to make the race for governor, with the pledge of the support of your valuable paper and the support of a great section of the state, which places me under a still deeper sense of gratitude to you and my other friends in that section.

I have received many letters from different parts of the state, and some from members of both the opposing political parties, asking me to make this race.

I realize that the governorship of this proud commonwealth is an honor any man could covet, and I have given the matter much consideration. Should I make the race it would be necessary for me to neglect the duties of the office I now hold, and the expense of a campaign such as would have to be waged would be far in excess of my financial resources. For these reasons I am persuaded that I should not become a candidate, but that I should devote my entire time to the discharge of the duties assigned to the office of attorney general, and at the close of my term, return to the active practice of my profession.

It shall be my pleasure at all times to do what I can in my feeble way for the advancement of our state, and in the future, as in the past, I shall be ready to give my services to the party which has honored me, and it will be a pleasure for me to serve you and my other friends who have been so loyal and true to me.

With the kindest regards and best wishes I am,

Yours very truly,

JAMES GARNETT.

Commenting upon General Garnett's decision not to make the race for governor, Editor Harris has the following editorial:

In another column we publish a letter from Attorney General Garnett in which he states his reasons, in a clear and concise manner, declining to enter the contest for the Democratic nomination for governor. For the last year Mr. Garnett has been regarded as a probable candidate and many of his friends in various parts of the state, and particularly in this section, have solicited him to enter the fight believing he could win in the primary, be elected in November and make a governor who would not only faithfully do his duty to the great good of the commonwealth.

His experience as the state's chief lawyer, his knowledge of the true condition and tendencies of the times backed by the courage he possesses, pointed him out as a most valuable man to guide the old ship of state through its present voyage of squaring accounts and plant a keel for every existing wrong.

Fidelity to Duty.

Fidelity to duty is one of his reasons for keeping out of the contest, and as we who know him best recognize that as one of his chief characteristics—one that has not only led the entire Democracy to him in this section, but many Republicans as well. We had hoped he would enter the race, win in the primary, triumph in November and prove the mettle of his Democracy in the kind of administration so needed in this day and age, and for which he is so eminently fitted to give. No other Democrat could measure strength with him in the part of the state that is a matter of regret that he has refused to obey the call of so many good friends.

Tribute to Garnett.

The Louisville Evening Post, commenting upon General Garnett's declaration, has the following complimentary editorial:

Mr. James Garnett, the attorney general of the state, yesterday announced that he will not seek the Democratic nomination for governor, but will devote the remainder of his term to disposing of the important business that remains in his department to be handled, and will at the expiration of his term return to Columbia to practice his profession.

As attorney general during the last three years, Mr. Garnett has done a large amount of public work of a lasting character, and he will leave that office deserving well both of the state and his party. It has been frequently contended that the post of attorney general should be made appointive at the hands of the governor, with a successful attorney general, of course, eligible for reappointment. There is much to be said in favor of such a plan, but any governor would find difficulty in securing as the chief law officer of the state a man who would serve with more ability, energy and success than has Mr. Garnett, who was d by the people three years ago.

TOM RHEA COMES OUT FOR AUDITOR

Seeks Nomination on "Strong and Worthy" Democratic Ticket.

RECORD AS ASSESSING OFFICER

Is Reviewed in Refuting Reckless Charges of Favoritism Toward Big Corporate Interests Made by Owsley Stanley—Will Not Enter Into Controversy With His Detractor—Points With Pride to Manner in Which Present Administration of Treasurer's Office Has Overcome Deficit Inherited From Republican Predecessor.

Thomas S. Rhea of Logan county, present state treasurer of Kentucky and late chairman of the Democratic state campaign committee, today makes announcement of his candidacy for his party's nomination, in the August primary election, for the office of auditor of public accounts. In entering the race Mr. Rhea presents to the voters a brief review of his course as a member of the state board of valuation and assessment, the franchise tax board of the state, showing that that body has by unanimous action materially increased the assessment of all the large public service corporations, refuting the reckless charges made by Congressman Owsley Stanley that the board had been influenced in behalf of the corporations.

Mr. Rhea also reviews his course in the management of the state's

financial department, the treasurer's office, declaring that the present administration has well handled a difficult financial condition left to it by the last Republican administration. His card of announcement follows:

To the Democrats of Kentucky:

On the last Saturday of next August the Democrats of Kentucky will nominate their candidates for state officers and make up their ticket to be submitted to the voters in the November election. In that primary I shall be a candidate for the Democratic nomination for the office of auditor of public accounts, and in making this announcement, I trust that my fellow Democrats will give to my candidacy their serious and favorable consideration. I shall endeavor to be very brief in what I say in this announcement, and shall rely upon the fair and discriminating intelligence of the people for what support I may receive.

I hope I may be pardoned for calling attention briefly to my experience as an officeholder. As auditor of my native county of Logan, and then for the last three years and more as treasurer of Kentucky, I have tried faithfully and earnestly to so perform the duties of office as to justify the confidence of the people who so honored me.

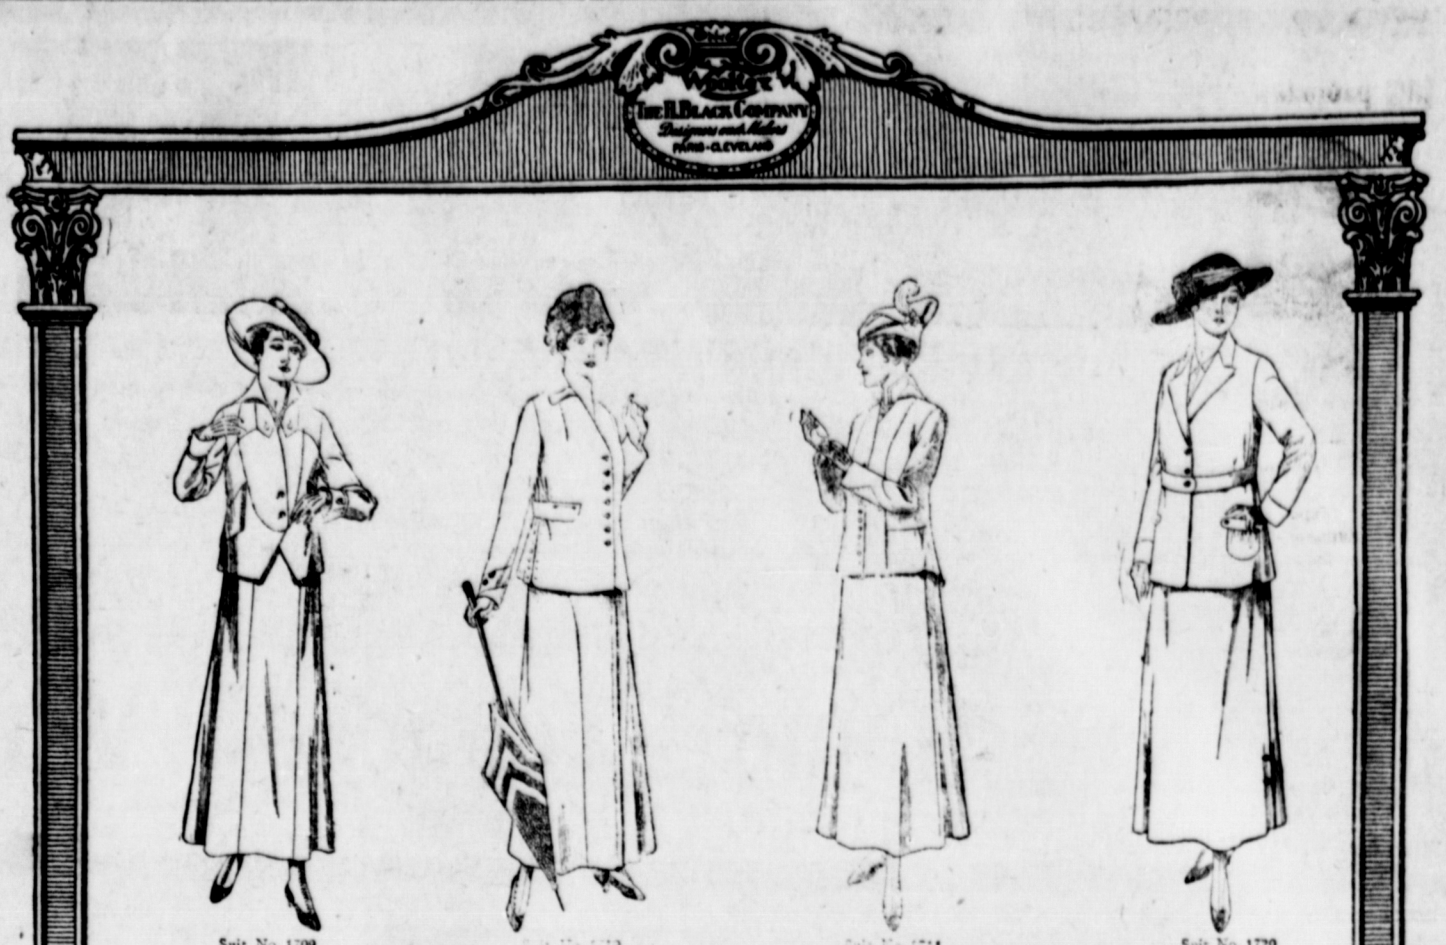

Member of Important Boards.

As state treasurer I have been, according to law, a member of the important governing boards of the state, the sinking fund board, the printing board, the capitol board and the board of valuation and assessment. This latter board is one of especial importance and consists of only three members, the auditor, the treasurer, and the secretary of state. It deals with the important question of fixing the franchise valuations upon all corporations doing business in this state, for purposes of taxation. The record made by the present board in the last three years has been remarkable and unprecedented. The board has not sought to hinder or cripple legitimate corporations, but has by the present board in the last three years has been remarkable and unprecedented. The board has not sought to hinder or cripple legitimate corporations, but has by the present board in the last three years has been remarkable and unprecedented.

The state is now receiving several hundred thousands of dollars more in taxes every year from this source than it ever received before. As a member of that board I have helped diligently in the work of adjusting these matters in accordance with the best interests of the people and without causing unjust hardship upon any legitimate industry. This board, with my active assistance, in the last three years, has increased the franchise valuations upon all the corporations of the state from \$44,000,000 to \$132,000,000; and four of the largest railroad companies, whose assessments were raised, have enjoyed the collection and carried the question into the federal courts, where the cases are now pending for a decision. The favorable settlement of these cases in the courts together with the large increases from other corporations which are not contested, means a great boon to the taxpayers and a most valuable increase in our revenues. In the four years of the present administration the increase of revenues from the assessments of those corporations, which have not contested increases, will amount to a sum to the state far in excess of \$1,000,000; and the increase of revenues from the same source to the counties, cities, towns and school districts of the state will amount to about \$2,000,000 for the same period. Should the courts sustain the action of the board in the raises made upon the four railroad companies I have referred to, it would add about \$1,000,000 more revenue to the state and about \$2,000,000 more to the counties, cities, towns and school districts in the same four years.

Explains Single Attack.

Notwithstanding my well known record upon the board in these matters and my efforts to serve the best interests of the people by placing a larger and a just burden of taxation upon the corporations, one man alone in all the state has undertaken to criticize me about the work of the board, and to reflect upon my conduct in connection with it. Mr. A. O. Stanley, some time ago, in announcing himself as a candidate for the nomination for governor, with his usual disregard for the truth, made an attack upon me and sought to create the impression that the corporations had been too favorably treated by the board, and that I and other gentlemen he mentioned had in some way been responsible for it. The record and the facts completely disprove his insinuations or charges, and show that no franchise board in the history of Kentucky ever made such large increases in the assessments of corporations. Mr. Stanley can hardly plead ignorance of these facts, because they have been discussed in the press and the courts of the state a great deal in the last two or three years. I am not a candidate for the same office that he is seeking, nor do I propose to descend into a controversy with him and would not now mention him except for his wanton attack upon me. The people of Kentucky have learned to know him as a man utterly reckless and unreliable in his statements or in his charges against other men. The only criticisms that have ever been made about the work of this board have come from those who have complained that we have raised the

The Best Women's Suits You Ever Saw at moderate prices—Wooltex, of course

BY special co-operation with the manufacturers of Wooltex tailored garments we have been able to assemble this remarkable collection. The models are wonderfully handsome, and in great variety. The materials are the popular gabardines, serges, poplins, coverts and checks. The illustration shows just four of the many superb designs.

When you consider that every material is absolutely all wool; that every fabric has been selected because of its superior qualities, and its correctness of style—

When you examine the linings of the garments and realize that every piece of silk is pure silk—

When you see how beautifully the garments are made, and are shown with what care and thoroughness every seam is run, and every vital point of tailoring is executed—

When you try on the garments and see how they conform to the figure, and how soft and elegant they feel—

When you realize the beautiful lines are not bolstered up by stiff canvas, but are tailored into a form which will retain its shapeliness during the life of the garment—

You will be amazed that garments of such elegance, refinement and general superiority can be bought for such reasonable prices as are marked on them.

Descriptions of the Suits Illustrated

The suit at the left of the picture, No. 1709, is adapted from a Paquin model. The effective pocket flaps are set on diagonally and outlined by closely-set buttons. The rolling collar is

finished with tabs that button down on the jacket; slightly diagonal front. New circular skirt, with partial over-yoke, trimmed with buttons like the jacket.

The second figure, No. 1710, illustrates a suit adapted from a recent Doucet model. A charming effect is produced by the slash at each side of the coat, finished with buttons and buttonholes. The partial belt from side to side across the back holds in the fulness. Gincer's collar overlaid with detachable washable collar.

No. 1711 is a charming suit in youthful effect with a panel back, which extends below the line of the coat at sides and in front. The partial belt around the back and sides ends at the panel in front. The skirt flares moderately below the yoke. The materials are serge, box poplin, and black and white checks.

Suit No. 1720 at the right is in a smart Polo effect, well cut on plain lines, with moderate fulness; finished with smart pockets on both jacket and skirt. Made in checks, poplin and covert cloth.

Many other Wooltex models at \$25.00 to \$30.00 combine variety and excellence that are absolutely unequalled in this city. But you must see them personally to appreciate fully their extraordinary value.

When may we have the pleasure of showing them to you?
